

Adaptive Aquatics

Join us in the pool!

This is a aquatic program designed specifically for children with special needs. During this aquatics program all of our participants will have a buddy for the entire 6 week session. We will work on getting comfortable in the pool, make new friendships, build on our existing skills as well as learn new strokes. We have trained staff that will not only make for a safe environment but a very fun one!

Lessons are held at North Brunswick Township High School Pool

Saturday Mornings

01/21-02/25

Residents: \$60 Non- Resident: \$70
